

SONJA OBRIEN

Summary There's no line between what I do and who I am: Real estate and animals are my passion. I was given the Humanitarian Award from the Asbury Park Chamber of Commerce in 2017.

I'm a seasoned agent with over 15 years of experience in the real estate industry. I know that buying or selling property is often a milestone event for my clients and I have an excellent reputation for working hard to match them with their ideal property or price point. I am able to bring a wealth of knowledge to both investors and first-time home buyers.

After working in corporate sales in Manhattan and practicing real estate in Montclair, NJ, my California roots had me pining for a personal and professional return to coastal living. From the time we purchased our first property here, in Asbury Park, I jumped feet-first into the community and felt right at home—the resplendent Jersey Shore is diverse, authentic and home to people who know how to live life to the fullest.

I enjoy helping others make a similar leap and have received numerous referrals and cultivated lasting relationships as a result. My love and knowledge of Asbury Park and its surrounding areas is a defining characteristic of mine.

I am very active in the community, working with animal rescue charities and as a member of the Asbury Park Historical Society, ArtsCAP and The Asbury Park Home Owners Association. For over eight years I have hosted a city-wide yard sale to raise thousands of dollars for two local animal rescues. I have rescued over 30 local sickly kittens and cats in Asbury Park, where I live, and nursed them to health and found homes for them.

It is the spirit of service and dedication that drives my life and my work.
